REASON FOR VOTE

Senator Rodríguez submitted the following reason for vote on SB 5:

I submit this statement to explain my vote against Senate Bill 5. There is no hallmark more intrinsic to democracy than ensuring all citizens have equal access to the ballot. However, our state’s history is riddled with examples of voter suppression and infringement of the voting rights of African American and Latino voters.
Unfortunately, the legacy of voter suppression was further marred by the passage of Senate Bill 14 in the 2011 session. With the passage of S.B. 14, Texas had the most restrictive voter identification requirements in the nation. We should never have passed that law, and we should have fixed it in subsequent sessions after multiple federal courts continued to find S.B. 14 violated the Voting Rights Act and the U.S. Constitution.

After years of litigation and appeals, the federal court finally issued an interim court remedy creating the necessary safeguards to protect the voting rights of all Texans. I am glad that we are codifying some of the safeguards put in place by the court. There is no question that S.B. 5 is a marked improvement over S.B. 14. One of the safeguards and improvements to S.B. 14 includes a provision expanding access to the free Election Identification Certificate through mobile units.

The most significant improvement relates to the addition of acceptable forms of ID that may be used to vote, if a voter signs a declaration stating that he or she does not possess an acceptable form of photo ID due to a reasonable impediment. The additional documents are the same as those allowed by the interim court order for the November 2016 election: a voter registration card; certified birth certificate; current utility bill; bank statement; government check, paycheck, or any other government document that displays the voter’s name and address.

Unfortunately, S.B. 5 went beyond codifying the interim court order. For instance, an expired identification up to four years was acceptable under the court order, but S.B. 5 limits it to two year expired identification, which is a reasonable compromise given that current law allows only 60 days. Another reasonable compromise that would have improved the bill would have been to allow student identification issued by public schools and institutions of higher education at least as an alternative form of identification coupled with the reasonable impediment declaration. In fact, a number of additional identification documents could be added including Native American Tribal Cards and State Employee Identification Cards.

However, the bill truly crossed the line into the realm of voter suppression by creating a third degree felony punishable by two to ten years in prison for intentionally making a false statement on the reasonable impediment declaration. This severe penalty is not tied to illegal voting or any type of voter fraud. The felony penalty is for falsely marking the wrong box that explains your impediment for not having a preferred photo ID. Under current law, a false representation on the form is punishable as a Class A misdemeanor. This leaves me to believe the only reason for this disproportionate additional crime is to intimidate eligible voters from utilizing the declaration in order to vote with an alternative identification. If this provision remains, the Secretary of State, counties, non-profits and other civic-minded organizations will be forced to warn eligible voters that if they use the declaration of impediment and mark the wrong box, the voter could be subjected to a felony. I believe this provision undermines the safeguards that the interim court ordered remedy put in place. I hope this provision is modified before final passage, so that we can truly feel confident that our election laws are providing equal access to the ballot.

REMARKS ORDERED PRINTED

On motion of Senator Huffines and by unanimous consent, the remarks by Senators Watson and Huffines regarding CSSB 407 were ordered reduced to writing and printed in the Senate Journal as follows:

Senator Huffines: Thank you, Senator Watson. Senators, you know I share your concerns about the way this exception to the Public Information Act has been used. I actually had a couple of bills drafted that I did not end up filing because SB 407 covers most of what I was trying to address. But I just wanted to confirm some of your understanding as well. First, is it your intent and understanding that Subsection (c) of SB 407 would apply to intergovernmental contracts and bids, as well as public-private sector contracts?

Senator Watson: The answer to that question is yes, but before I get any more detailed than the answer, let me thank you for being a Co-author of this bill. You signed on very early. And, Senator, the answer to your question is yes, Subsection (c) isn't limited to any one type of contract. So, I think both types will be covered, and that is certainly my intent.
Senator Huffines: Okay. So, if a school district enters into a contract at the city, once that contract is final, the school district and the city can't use this exception to keep that contract secret.

Senator Watson: Correct, Senator.

Senator Huffines: Excellent. Great, okay. The second thing I want to ask you about is the references in your bill to Government Code, Section 552.305. What does SB 407 change about that section, Senator?

Senator Watson: Well, that section, it's 552.305, allows a governmental body to withhold requested information in certain circumstances in order to protect a third party's interest. My bill, Senate Bill 407, makes it clear that a governmental body can't do this with the competition or bidding exception. And, Senator, the reason for this is very simple. The competition or bidding exception was always meant to protect the governmental body's interest in a very narrow set of circumstances when it's receiving bids or offers for work. Meanwhile, there are different exceptions in the Public Information Act, including the trade secrets exception, in Section 552.110, and those were always the ones that were there meant to protect third parties. So, what we've done is by clarifying the governmental body can't withhold requested information to protect a third party's interest under the competition or bidding exception, we're clarifying the separate functions of these different sections. One protects a governmental body's interest and the others protect third party's interests.

Senator Huffines: Okay, thank you, Senator. And, finally, I wanted to ask you about a governmental body's responsibilities under this bill. Even when the exception applies, can the governmental body waive the exception and release the information?

Senator Watson: Yeah, that's a very good question. And, yes, the answer is yes, they can. This particular exception, the way it's drafted, is a discretionary exception, meaning that if the governmental body thinks it's appropriate, the governmental body can release the information even if it were to be covered by the exception.

Senator Huffines: Okay, and what if the governmental body doesn't raise this exception within the time limits of the Act?

Senator Watson: Well, the AG's Office, the Attorney General's Office will tell them, you've lost the chance. You can't raise it, you can't raise it, and any covered information has to be released unless there's another compelling reason to withhold it. Because this is a discretionary exception, as we just talked about, it doesn't qualify as a compelling reason that can be raised after the deadlines have passed, because it's discretionary. They can make the decision, they don't want to do it. And, working with the Attorney General's, and we've worked very closely with the Attorney General's Office on this bill and on 408, it's the Attorney General's long-standing practice, and I think it's clear from the Act, that this is what was intended. I do have a separate bill. It's Senate Bill 1655, which would make it even more explicit in the Act, and I'll look forward to working with you to pass that one, too.

Senator Huffines: Well, thank you very much, Senator Watson, for bringing this very important legislation to the floor.

   (xii) the part, section, or portion of an organization, corporation, commission, committee, institution, or agency that:
      (a) receives or spends public funds, if the receipt or expenditure does not impose a specific and definite obligation on the entity to provide a measurable amount of goods, services, benefits, or insurance in exchange for the public funds as would be expected in an arms-length transaction or quid pro quo agreement for goods, services, benefits, or insurance between a vendor and purchaser;
      (b) receives or spends public funds under an agreement to provide a traditional governmental service, which does not include a utility service, that the state or the political subdivision providing the funds will not provide under the agreement; or

   (B) does not include the judiciary.

SECTION 3. The change in law made by this Act applies only to a request for public information received on or after the effective date of this Act. A request for public information received before the effective date of this Act is governed by the law in effect when the request was received, and the former law is continued in effect for that purpose.

SECTION 4. This Act takes effect September 1, 2017.

The amendment to CSSB 408 was read and was adopted by a viva voce vote.

**REMARKS ORDERED PRINTED**

On motion of Senator Taylor of Collin and by unanimous consent, the remarks by Senators Watson and Taylor of Collin regarding **CSSB 408** were ordered reduced to writing and printed in the *Senate Journal* as follows:

**Senator Taylor of Collin:** Senator Watson, really appreciate you bringing this to the floor and wanted to make sure that, want to expand on what Senator Burton and you were talking about in regards to affecting private schools.

**Senator Watson:** Okay. And, by the way, thank you for signing on to this bill very early on.

**Senator Taylor of Collin:** I was proud to do it. So, if education savings account pass in Texas, will this bill affect those private schools?

**Senator Watson:** It, it should not. This, this bill is not meant to affect private schools.

**Senator Taylor of Collin:** Okay, thank you. It's my understanding that, that in an education savings account, a percentage of what the state would pay for a child to attend a priv– public school will be given to the parent of the child as an online payment to use for tuition and fees, and a private school this payment is made directly to the parent not to the school.

**Senator Watson:** And that’s the reason I gave the answer I gave. In, in previous answer to Senator Burton that’s the other thing I pointed out. A grant or payment to an individual would not subject the, the school to the Public Information Act.
Senator Taylor of Collin: To go, uhm, in, in, in just to complete this thought, I mean, so the Texas Education Grant program, right, where Texas tax dollars go to private universities in the form of scholarships, it does not make them subject—

Senator Watson: Those actually go to the students via the colleges.

Senator Taylor of Collin: —so the student would not be subject to the Public, Public Information Act.

Senator Watson: The student, that's what I'm saying is the, the difference between private entities where you're giving a grant or a stipend, that doesn't subject the institution to the Public Information Act because it's going to an individual.

Senator Taylor of Collin: Okay, I appreciate that.
