REASON FOR VOTE

Senator Rodríguez submitted the following reason for vote on **SB 258**:

I submit this statement to explain my vote against Senate Bill 258. S.B. 258 places unnecessary financial, bureaucratic, and emotional burdens on both patients and health care providers without providing any medical benefit to the woman, which violates the U.S. Supreme Court ruling in *Whole Woman's Health v. Hellerstedt*. Just as the state cannot ban abortion outright, it may not make an end-run around these constitutional limits by targeting abortion providers for regulations whose purpose or effect is to erect barriers for women obtaining abortions. It is worth noting that a federal trial court has already blocked similar rules that the state agency proposed last year.

This bill would push women into sharing their personal information with third party non-profits. If a woman could not afford to pay for cremation or interment, it would require health care facilities ask low-income women - before they have an abortion - if they would like to include their contact information on a state form and authorize the health care facility to release this information to groups that have volunteered to assist them with burial or cremation costs. With no protective stipulations or vetting procedures in place, this is an unconscionable violation of privacy, and places women at the risk of harassment and shaming by these organizations. Low-income women are especially vulnerable to this provision, as they may have no choice but to share their decision with these non-profits to alleviate the financial burden of cremation or interment. This will only serve to exacerbate the mental anguish women undergo in having a miscarriage or an abortion.

S.B. 258 uses coercive and stigmatizing procedures to erect additional barriers to women seeking abortion services as well as care for miscarriages, which can make women hesitant to seek health care. These delays can lead to women developing further health complications.

For all of these reasons, I cannot support S.B. 258, which jeopardizes women's health care by adding burdensome and non-medical procedures that interfere with access to reproductive health care services.
